ALL GONE!

Magic can make things appear out of nowhere and vanish out of sight. But what if you make your friend disappear by mistake?

Oh no!

“All Gone!” is a story about the sadness of loss, and the joy of finding. Two pals dressed in velour, dance and perform magic tricks. A humorous dance performance inspired by children’s peek-a-boo games.

...quality dance for children – dance that takes the small kids seriously and trusts in their ability to take in high-quality culture. We would like to see more of this.
