## FAUNA AND ME

A dance performance about animals and us.

Do you like animals? Are you afraid of them?  
We dance like animals to music made of their sounds  
and reflect on what it's like to be an animal. I personally divide  
animals into three groups, those that I find disgusting,  
those that I have no idea why they exist at all, and those that I am afraid of.  
I was once a true dog-lover, lived and even slept with dogs in my bed,  
until it turned out I was hyper-allergic. The grown-ups thought I just always  
had a cold and that my rashes came from eating strawberries, but I was  
allergic to animals!  
I want to like animals, I would like to understand what they are trying  
to say with their sounds, but I can't.

This is a performance that will eat you up.

**Choreography, concept, costume and stage design:** Minna Krook

**Participating performers:** 3 dancers

**Music:** Anders Bennysson and Tomas Hirdman

**Target group/audience:** 6-10 years / families

**Maximum audience:** 60 children ( + grown-ups)
